Regency Prescriptions	\$12.60

When Sun Life calculates your reimbursement, they will remove the dispensing fee from the “eligible amount” and apply the percentage level (85% for PharmaCare drugs and 70% for non-PharmaCare drugs). While it is more economical for you to purchase your prescriptions at a Pharmacy with lower dispensing fees, the choice of Pharmacy is up to you.

*Fees are subject to change and based on average fees for the first half of 2015.*
