

Sit-Stand Platforms/Risers

Height adjustable desks are the preferred option. Platforms/risers are less expensive than desks but there are trade-offs with the placement of the monitor, keyboard and paperwork.

Below are examples of platforms and the trade-offs that you need to consider prior to consider before purchasing. We offer regular *Intro to Sit-Stand Desks* [workshops](#) where we provide more details on what to consider before purchasing a sit-stand desk or platform/riser.

Prices subject to change and do not include installation. Prices are provided as a ballpark estimate; contact vendor(s) for an updated quote.

Example of Platforms	Notes
<p>ErgoTron TX</p>  <p>TX 33-467-921: \$655</p> <p>Available from: Staples away Kathleen.Hatami@Staples.com</p>	<ul style="list-style-type: none"> • No installation • Single/Dual Monitor option available • Monitors can be positioned freely on platform or monitor arms can be purchased separately • Keyboard tray drops 3.5" below the desk to 15.6" above the desk • Relatively low profile, at it's lowest setting the platform is only 2" above the desk • Platform can be raised 19" above the desk • People with wrist pain/arthritis may have difficulty, particularly if they are using an iMac or heavy monitor on the platform • Those with light monitors and no health issues will likely find that the platform can be raised and lowered fairly easily • Weight Capacity: 40lbs • Fits on 24" deep desks • Dimensions: Upper level: 32" X 27" + keyboard tray: 28"X8" • 5 year warranty • Dimensional Illustration
<p>Humanscale Eco Quickstand</p>  <p>Single Monitor: QSEWS: \$479</p> <p>Dual Monitors: QSEWD: \$573</p> <p>Available from: Staples away Kathleen.Hatami@Staples.com</p>	<ul style="list-style-type: none"> • Single/Dual Monitor option available • Platform is counter balanced: tension needs to be set for specific monitor but once set the platform can be raised/lowered easily • Keyboard tray does not drop down below the desk; at it's lowest, it is approximately 1.25" above the desk; at it's top height is sits 18" above the desk • At it's lowest setting, crossbar for the monitor sits 11.5" above the desk and at it's top height, the crossbars sits 34.5" above the desk. The crossbar attaches to the middle of the monitor • If the crossbar is set to the middle setting (crossbar height needs to be changed manually) then at it's lowest, it sits 14.5" above the desk, up to 31.5" above the desk • Weight capacity: 35lbs • Fits on 24" deep desk • Dimensions: 29.2"DX28"WX28"H • Specification Sheet
